1 Demo Plans

For revision 0 we plan to show a minimum viable product for Housemates. This would involve showcasing the main 3 features of the housemates application: the bill management functionality, the scheduling functionality, and the task management functionality. Specifically, for the bill management function we will show a bill split between a group of users, for the scheduling functionality we will showcase the creation of an event, and for the task management functionality we will showcase the creation of a task for a group.

2 Meeting Attendance

Student	Meetings
Total	2
Justin Dang	2
Harris Hamid	0
Fady Marcos	2
Sheikh Afsar	1
Rizwan Ahsan	1

* As Of Jan 30, 2024

3 Lecture Attendance

Student	Lectures
Total	2
Justin Dang	2
Harris Hamid	0
Fady Marcos	0
Sheikh Afsar	0
Rizwan Ahsan	0

* As Of Jan 30, 2024

4 Commits

Student	Commits	Percent
Total	11	100%
Justin Dang	7	63%
Harris Hamid	2	18%
Fady Marcos	4	36%
Rizwan Ahsan	1	9%
Sheikh Afsar	4	36%

* As Of Jan 30, 2024

* Doesn't include development branches (most of rev 0 development)

5 Issue Tracker

Student	Authored (O+C)	Assigned (C only)
Justin Dang	6	4
Harris Hamid	0	4
Fady Marcos	1	4
Rizwan Ahsan	0	4
Sheikh Afsar	0	4

* As Of Jan 30, 2024

* A lot of tasks were tracked in a Google Docs document

6 CICD

CI/CD will be used in Housemates to automatically run the tests that will verify that the features of Housemates work correctly. This will be done with GitHub actions' Node.js workflow.
